No, the 1990 date would be the first restriction due to salmon listing (in the 1989 -1990 time frame).  
Delta smelt not listed until 1993.

Yeah, do you see the "no deficiencies until 1990" Is that when the first smelt reductions were put into place? One would assume so.

How do these numbers mesh with this chart on the BDCP Purpose?

I don't want to side track you but are they consistent or apples and oranges.

did you get my VM?
